High Bay - Premium
Direct Linear Ambient Luminaire - Standard

The Hangzhou LMenergysolution Lighting Company, Ltd., **LMW496 High Bay** is the most innovative 16,000 lumen high bay on the market. The simple one-piece design offers the narrowest and shallowest housing in class, delivering an industry leading 173 LPW. Designed with the contractor, electrician and maintenance person in mind, the LMW is simple to install for both surface mount and with aircraft wire hangers. The polycarbonate body and lens (frosted and clear) provide for an attractive, yet durable high bay for even the most challenging of environments.

7 Year Non-Prorated Warranty

Hangzhou LMenergysolution recommends Transient Voltage Surge Suppression (TVSS) on circuits controlling LED lighting. If warranty claims exceed 0.5% of installed lights and the lights are not protected by a TVSS, the warranty may be voided, resulting in denied claims. Always check for an Open Neutral. Voltage and current on the neutral is dangerous and can cause LED failure and void the warranty.
